

Dear Parent/Guardian,

I am currently a graduate student at Brooklyn College. This semester I am in the process of completing an Action Research Project as one of the requirements for our course. I would like to invite your child to participate in a research study that will be conducted between February and May. Therefore, I am requesting your permission to gather data and incorporate the information.

If you allow your child to participate, he/she may be required to complete questionnaires, demographic surveys, achievement measurements and participate in possible observations. Through this study, I hope to learn about the impact of Inquiry Based Learning on the educational system.

Any information that is obtained in connection with this study and that can be identified with your child will remain confidential and will not be disclosed. The participants will be kept confidential by assuring that all names remain anonymous.

If you have any questions or concerns, please feel free to contact me at FPortes484@Gmail.com.

Sincerely,

Francesca Portes
